Mr. Smith stated the second item for consideration is a resolution that allows the City to pay for the cleaning and painting of the water tower through tax exempt bond anticipation notes or bonds and to reimburse the City for expenditures relating to the project. He stated the intent is to pay for the project using cash; however, this allows another avenue of paying for the project.

8. CONSIDERATION OF REVISED POLE ATTACHMENT (LEASE) AGREEMENT

City Attorney Hoffschneider stated the City requested to develop a pole attachment (lease) agreement upon the request of Bluestem Fiber, LLC, who is requesting the agreement for use of the City's poles to bring fiber into the community. In reviewing the City's current agreement, which was created in the 1980's, it was determined best to develop a new generic agreement that would be used for all future pole attachment requests. He stated the fees for attaching to the poles is covered in the agreement.

City Administrator Smith stated this agreement includes the fee schedule strictly for pole attachment. There is a separate fee that is charged, regardless if the wire is overhead or underground, which is covered in the City's right-of-way fee schedule. Mr. Smith added that the pole attachment agreement with Time Warner, which is under the 1982 agreement, will need to be negotiated to better align with this new agreement, if approved as the standard agreement.

17. CONSIDERATION OF AN ORDINANCE (THIRD AND FINAL READING) SUSPENDING SEWARD MUNICIPAL CODE SECTION 3-141 FOR A PERIOD OF TWO YEARS AND ISSUING A STAY FOR THIS TIME FOR DIGGING, DRILLING OR CONSTRUCTION OF PRIVATE WELLS WITHIN THE CORPORATE LIMITS OF THE CITY

Mayor Eickmeier read on third and final reading Ordinance No. 2016-12, AN ORDINANCE TO SUSPEND SEWARD MUNICIPAL CODE SECTION 3-141 FOR A PERIOD OF TWO YEARS, AND TO ISSUE A STAY FOR THE SAME PERIOD OF TIME FOR THE DIGGING, DRILLING OR

August 2, 2016

CONSTRUCTION OF PRIVATE WELLS WITHIN THE CORPORATE LIMITS OF THE CITY; TO PROVIDE FOR PUBLICATION OF THIS ORDINANCE IN PAMPHLET FORM AND TO PROVIDE FOR A TIME WHEN THIS ORDINANCE SHALL TAKE EFFECT.

Councilmember Singleton raised the following concerns: ordinance does not provide an exemption for existing wells to be repaired or replaced (a new permit would be required if the existing well would fail and a replacement well dug); and, wording of ordinance affects large consumers, as well as residential consumers - could deter large business from locating in the City.

Rob Ringler, 1520 N 1st Street stated that he owns several agricultural wells and if one goes bad, he has to register a new well under a new permit and close down the existing well.

Councilmember Schmit stated he contacted the NRD and the Upper Big Blue and the representatives he spoke with did not have concerns; however, they thought it odd that the City allowed private wells and were surprised by the number of private wells in the City. He said they were concerned that the City did not have an inspection program or enforcement for the private wells. Mr. Schmit stated, the City needs to establish rules for registration and inspection of private wells, rules for abandoning wells or tracking the wells when the property changes hands, and to establish an annual inspection fee to cover the costs of the process.

Councilmember Kamprath agreed with Councilmember Schmit's suggestions, but added that he would still like the information on number of private wells and how many and who is sharing wells before a moratorium is considered. He said he feels there needs to be more enforcement. He added that he does not feel the City is losing that much revenue by allowing private wells.

City Attorney Hoffschneider reminded the Council that the proposed ordinance is not banning private wells, but stopping any additional wells from being constructed during the moratorium (two-year) time frame.

Councilmember Beck stated she also agrees with Councilmember Schmit's suggestions and added that a study and information gathering can be done without placing a moratorium on applications for additional wells.

Mayor Eickmeier stated the point of the moratorium was to allow time to gather information to consider new rules and regulations for the wells that are in place and future wells (should the Council choose to continue to allow private wells), without issuing permits for additional wells under current regulations that may change. He stated he was trying to avoid a run on permit requests. The aggregate number of wells is not the issue, but rather approving wells under the current rules if there is potential for changing those rules.

Councilmember Kamprath inquired of the City Attorney if the City Council could ban all wells and require them capped.

City Attorney Hoffschneider stated that would be a harsh ordinance, but legally, the City could ban all private wells. He said it could possibly be considered an unconstitutional taking.

Mayor Eickmeier called for a motion on adoption of Ordinance No. 2016-12. Hearing no motion or second, Ordinance No. 2016-12 did not pass.
